Edition: Q3 | September 2025

Monthly Newsletter of Medical Equipment & Device Manufacturer and Exporter Bangladesh (MEDMEB)

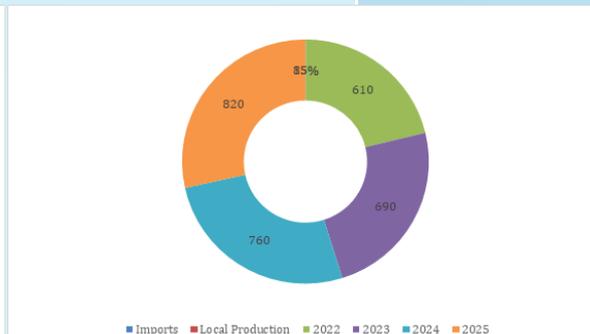

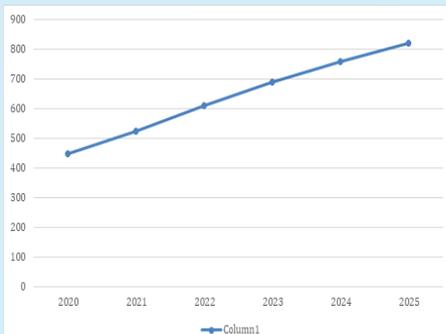

## President Note

Dear Members, Partners, and Industry Leaders,

Welcome to the September 2025 edition of the MEDMEB Monthly Newsletter. As the premier association representing Bangladesh's medical equipment and device manufacturers and exporters, we are proud to share the latest developments, insights, and opportunities shaping our sector. This month's newsletter highlights industry growth, export expansion, innovation, and the challenges we must collectively overcome to position Bangladesh as a global hub for medical devices.

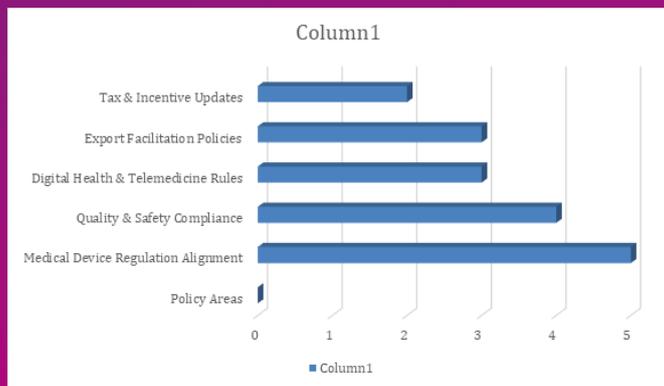

## Industry Highlights

Bangladesh's medical device sector experienced significant growth in 2025, driven by innovation, compliance, and increasing international demand. Local manufacturers are not only meeting domestic healthcare needs but also scaling exports to Asia, the Middle East, Africa, and Europe. With increasing investment in technology, R&D, and capacity building, MEDMEB members are at the forefront of positioning Bangladesh as a trusted name in the global healthcare sector.

Category	Sub-Category / Segment	Key Products / Items	Lead Manufacturer / Market Role	Maintenance & Service Notes
Fast-Moving Products	Consumables	IV cannula, infusion sets, syringes (AD & disposable), needles, scalp vein sets, gloves, masks, urine bags, ECG electrodes	<b>JMI Group</b> , Established leaders in high-volume consumables	Regular QC checks; high reorder frequency; storage control for sterile & dated items
Fast-Moving Products	Medical Devices	Nebulizers, suction machines, portable patient monitors, weighing scales, basic sterilization units	<b>PROMIXCO Healthcare</b> — Distributor & local assembler	Quarterly preventive maintenance; ensure spare kits and calibration yearly
Essential Products	Critical Care & OT	ICU beds, HDU beds, OT tables & lights, patient monitors (5–7 params), ventilators, autoclaves, ESUs, defibrillators	<b>PROMIXCO</b> Local manufacturer (beds, furniture) & integrator (devices)	PPM every 3 months; annual calibration; Gold SLA recommended for ICU/ventilator uptime
Essential Products	Diagnostics & Imaging	X-ray (fixed/portable), ultrasound, ECG, analyzers (hematology, biochemistry), oxygen concentrators	<b>PROMIXCO</b> Distributor + assembler (with CE/FDA/DGDA compliance)	Semi-annual PPM; annual calibration; spare boards/probes for quick swap
Manufacturers	Consumables	Syringes, IV sets, cannulas, urine bags	<b>JMI</b> — Domestic high-volume producers	Embedded QC in production; DGDA-registered; dominant in hospital supply chain
Manufacturers	Medical Devices & Furniture	ICU/ward beds, OT lights/tables, trolleys, sterilizers, patient monitors	<b>PROMIXCO</b> — Local manufacturer & exporter	Strategic focus on durability + service; export-ready QA systems; workshop in Maryland, USA
Maintenance	Service Tiers &	Bronze (break-	<b>PROMIXCO</b>	Uptime ≥98%

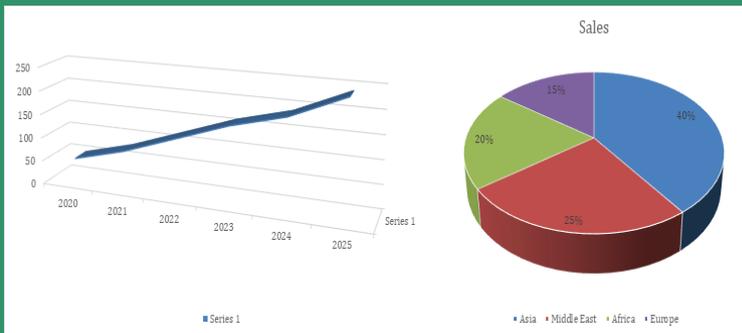

## Policy & Regulation Updates

The Directorate General of Drug Administration (DGDA) and MEDMEB continue to collaborate on implementing a Medical Device Policy aligned with WHO guidelines. This policy framework will ensure the safety, quality, and competitiveness of Bangladeshi medical devices in international markets. MEDMEB is also engaging with global stakeholders to ensure harmonization with the US FDA, EU MDR, and ASEAN standards.

## Export Growth & Opportunities

The global medical device market is projected to reach USD 800 billion by 2030, offering immense opportunities for Bangladeshi exporters. This year alone, export volumes have increased by 18%, with high demand for hospital furniture, diagnostic devices, surgical instruments, and hygiene products. MEDMEB is actively facilitating trade fairs, B2B matchmaking, and government support to help our members access new markets and meet global regulatory standards.

## Innovation Spotlight

Several MEDMEB members have pioneered innovative products in 2025, including AI-enabled diagnostic tools, cost-effective ICU beds, and portable health monitoring devices. Such innovations highlight the creativity and capability of Bangladesh's manufacturing ecosystem.

## Upcoming Events

1. MEDMEB International Trade Fair 2025 – Dhaka, November
2. Global Medical Device Exporters Roundtable – Singapore, December
3. Training Workshop on EU MDR Compliance – October
