NOVEMBER 2025

INSIGHTS ON BANGLADESH'S MEDICAL DEVICE INDUSTRY

Bangladesh's medical device sector is entering a defining era. November 2025 brought a wave of momentum shaped by stronger manufacturing capacity, rising global interest, and policy alignment with international standards. As healthcare demand surges across Asia, the Middle East, and Africa, Bangladesh is emerging as a trusted partner—reliable, scalable, and ready to compete.

Bangladesh's medical device Demand- November 2025

## INDUSTRY MOMENTUM

Local manufacturers expanded capacity while maintaining strict quality benchmarks. Demand for diagnostic devices, surgical consumables, and sterile supplies continued to climb. Export enquiries increased, especially for ECG machines, patient monitors, suction units, examination gloves, surgical gauze, and CSSD products.

## REGULATORY ALIGNMENT

The government accelerated initiatives for WHO-compliant guidelines. This gives Bangladesh a competitive edge, positioning local manufacturers to meet global regulatory expectations and unlock new markets.

## EXPORT OPPORTUNITIES

Buyers from the Middle East, Africa, and Southeast Asia continued seeking:

- Home diagnostic tools
- Hospital consumables
- Wound care products
- Rehabilitation and physiotherapy equipment

Bangladeshi manufacturers with compliant facilities—like MEDMEB—now stand as preferred suppliers.

## MARKET TRENDS IN NOVEMBER

- Surge in home-care devices
- Hospitals upgrading critical care units
- Increasing demand for safe, eco-friendly packaging
- Global buyers prioritizing fast delivery and predictable supply chains

## MEDMEB'S POSITION

With its manufacturing strength and export readiness, MEDMEB is well positioned as a leading contributor to national growth. November brought expanded distributor outreach, stronger brand visibility, and increased domestic and international demand.

Bangladesh is no longer just catching up—it's stepping forward as a global medical device hub, backed by manufacturers who blend quality with innovation.

MEDMEB continues to lead with commitment, precision, and purpose.
